English

- Sentences ready to be copied :

This work was supported by the DatalA Institute at Université Paris-Saclay.

- Short summary about the DatalA Institute :

The DatalA Institute is the artificial intelligence research institute at Paris-Saclay University. It brings together more than 800 researchers from 50 laboratories to conduct cutting-edge interdisciplinary research in AI and data science.

- Announcement of Research Funding/Start of Research.

 I am excited to share that I am starting a research project focusing on **[research topic]**.

This work explores **[short description of the scientific question or problem]**, with the aim of better understanding **[scientific challenge or application]**.

This project is supported by @Institut DatalA Paris-Saclay (Université Paris-Saclay), which funds and promotes interdisciplinary research in artificial intelligence and data science.

I am glad to contribute to this research alongside **[team / laboratory / collaborators]**.

- Start of thesis.

🎓 I am excited to begin my PhD on **[PhD topic]** at **[laboratory / university / school]**.

My research focuses on **[short description of the research topic]**, with a particular interest in **[specific scientific question or approach]**. This work addresses **[scientific or societal challenge related to the topic]**.

This PhD is supported by @Institut DataIA Paris-Saclay Paris-Saclay (Université Paris-Saclay), which promotes and funds interdisciplinary research in artificial intelligence and data science.

I am very happy to start this new research journey and join such a stimulating scientific environment.

- Start of post-doc.

🔬 I am starting a postdoctoral position focused on **[research topic]** at **[laboratory / institution]**.

My work will explore **[scientific problem or methodological approach]**, with the aim of improving our understanding of **[scientific challenge or application]**.

This research is supported by @Institut DataIA Paris-Saclay (Université Paris-Saclay), which encourages and funds interdisciplinary research in artificial intelligence and data science.

Happy to continue my research in this dynamic scientific environment alongside **[team / collaborators]**.

- Beginning of an internship.

🎓 I have recently started an internship focusing on **[internship topic]** at **[laboratory / team / institution]**.

During this internship, I will be working on **[short description of the project or research question]**, with the goal of **[objective or application]**.

This project is part of research supported by @Institut DataIA Paris-Saclay (Université Paris-Saclay), which funds and promotes research in artificial intelligence and data science.

Very happy to discover this research environment and contribute to this project alongside **[team / supervisor]**.

- Paper accepted for publication.

📄 Our paper titled "**[paper title]**" has been accepted at **[conference / journal name]**.

In this work, we investigate **[scientific problem]** and propose **[method / contribution]** in order to **[main objective or result]**.

This research was conducted with the support of @Institut DataIA Paris-Saclay (Université Paris-Saclay), which promotes interdisciplinary work in artificial intelligence and data science.

- Attendance at a workshop/seminar/event.

 I recently had the opportunity to participate in **[workshop / seminar / conference name]** held at **[location / institution]**.

It was a great opportunity to present and discuss my work on **[research topic]**, and to exchange ideas with researchers working on **[scientific field or topic]**.

This research is supported by @Institut DataIA Paris-Saclay (Université Paris-Saclay), which funds interdisciplinary work in artificial intelligence and data science.

Always inspiring to meet the research community and discover new perspectives.

- Significant scientific finding.

 We recently obtained promising results in our research on **[research topic]**.

These findings make it possible to **[main result or contribution]**, providing new insights into **[scientific problem]**.

This work was carried out within **[laboratory / team]**, with the support of @Institut DataIA Paris-Saclay (Université Paris-Saclay), which promotes interdisciplinary research in artificial intelligence and data science.

Many thanks to everyone involved in this project.

- Announcement of a thesis defence.

🎓 After several years of research, I will soon defend my PhD thesis titled "[thesis title]".

This work, carried out at [laboratory / university / school], focuses on [short description of the research topic] and explores [main scientific contribution or question].

I would also like to thank @Institut DataIA Paris-Saclay (Université Paris-Saclay) for supporting this research and promoting interdisciplinary work in artificial intelligence and data science.

The defense will take place on [date] at [location / institution].

Many thanks to everyone who contributed to this research journey.

- Institutional acknowledgement.

On the occasion of [project milestone / publication / thesis defense / research step], I would like to thank @Institut DataIA Paris-Saclay (Université Paris-Saclay) for supporting this research.

The funding and support provided by @Institut DataIA Paris-Saclay made it possible to develop this project on [research topic] within [laboratory / research team].

Such support plays an important role in advancing interdisciplinary research in artificial intelligence and data science.

Many thanks to everyone involved in this scientific community.
